Two cents is the price of a warm bath if you use a Gas Stove and an instantaneous water heater. Is there a valid reason for your not taking a warm bath?

WILL NOT LOSE HAWAIIAN TRADE

COMMISSIONER MORGAN SAYS
THERE IS NO DISPOSITION TO
DIVERT IT FROM FRISCO.

SAN FRANCISCO, July 25.—James Morgan, relief commissioner, sent to this city from the Hawaiian Islands, and one of the most influential citizens of Honolulu, says that San Francisco and its people may rest assured that this city will always have the support of the islands, commercially and otherwise.

"The people of the islands would rather be considered a suburb of San Francisco than belong to any other city of the Pacific Coast," said Morgan. "They look on San Francisco as their mother city, and it is with a sense of pride that they mention her name. Not a dollar's worth of trade will be diverted from San Francisco, if the people of the islands have any say in the matter. They are as loyal to this city as any citizen here trying to rebuild it, and the men of San Francisco will find that the men of the islands are back of them in anything that they may do, and will support them with their money and their moral aid."

"The talk that any of the trade that formerly came to this city through the islands will be diverted to other channels is foolish. For a time there might be a temporary falling off, but as soon as the commercial channels are restored and the wheels of commerce are once more oiled, all the trade will pour into San Francisco from the islands as before."

"I heard one of the richest men in the islands say that he was going to start out for San Francisco and spend some of his money here, just to see that he did his part in rebuilding the city. He said he had made his money here, and that this city had always been his home, and always would be, and now that she was in trouble he was not the man to stand back and see her suffer. That is the spirit which prevails in the islands. San Francisco will find as time goes on that she has no firmer friend nor better wisher than the city of Honolulu."

"Instead of diverting any trade from San Francisco the disaster will, in all probability, have the opposite effect. The people of the islands realize that they must all stand back of this city, and the trade that has been going into other channels will come to this city."

"Most of the people in the islands

HAWAIIANS WANT FILIPINO LABOR

SCHEME TO TRANSPORT LABOR-
ERS TO SUGAR PLANTATIONS
APPROVED BY COMMISSION.

MANILA, July 24.—The Philippine Commission has adopted a resolution favoring the scheme of the Hawaiian Planters' Association to transport Filipino laborers and their families to Hawaii to work in the sugar plantations. Albert F. Judd, representing the planters, arrived in the Philippines two months ago, and after making an investigation of labor conditions presented to the commission a statement of the needs of Hawaii.

The commission has authorized an agreement with the planters' association permitting vessels to pick up laborers at various ports on condition that they be given good treatment, be permitted to return to the Philippines at the expiration of the terms of their contracts and that transportation be provided.

Laborers desirous of going to Hawaii are advised to accept the offer of the association.

Judd wants to secure 200 laborers with their families. "I have affiliations here, and many of them claim it as their home, and are not going to forsake their alma mater just because it has met with disaster. I speak for the whole islands when I say there is nothing that the people there will not do to aid San Francisco, and I cannot make this statement too strong."

James Morgan is at the Majestic, but will return to Honolulu by the next steamer.

Principals in Pittsburg's Divorce Trial

Mrs.
AUGUSTUS
HARTJE

AUGUSTUS
HARTJE

Next to the Taw murder the current legal sensation of the country is the Hartje divorce suit now in progress in Pittsburg. In this suit, in which Mrs. Augustus Hartje, wife of the Smoky City millionaire, is the defendant, charges of a most amazing character have been made by both principals. Among them are attempts to establish two coachmen, one a negro, as co-respondents, and an endeavor on the part of the defense to show that the woman in the case is the victim of a gigantic conspiracy in which forgery, bribery and perjury has had free play.
